

Thick & Easy® Thickener - International

Code Dating Explanation

Unit Code Dating: Coded with a one digit plant identifier, five digit date-of-pack code date, and one digit shift designation. Also coded with a six digit advanced (expiration) code. Code dates can be found on the back side of the pouch or bottom of the canister.

Example BEST BY 10/27/22
V102717-1 07:25

BEST BY = Expiration date in MM/DD/YY format

V = Plant identification

10= Month

27= Day of Month

17 = Year (2017)

1 = 1st Shift of the day

7:25 Military Time Stamp * = only certain items will be time stamped. Look for asterick below

Corrugate Code Dating: Coded with a one digit plant identifier, five digit date-of-pack code date, and one digit shift designation. Also coded with a six digit advanced (expiration) code. Code dates can be found on the lonf side of the case.

Example: V03287 1
03/2012

V = Plant identification

03 = Month (March)

28 = Day of Month

7 = Year (2007)

1 = 1st Shift of the day

03 = Month

2012 = Year (advanced date for a five year shelf life)
