HORMEL

HEALTH LABS

PRODUCT GUIDE

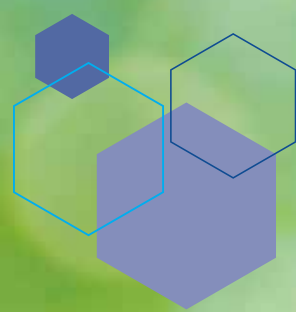

TABLE OF CONTENTS

At Hormel Health Labs we are inspired by contributing to the joy and well-being of our aging population through delicious, nutritious food products. Our dysphagia products allow individuals with swallowing difficulties to enjoy their favorite foods and beverages.

In addition, we have several nourishing options designed to add extra calories and protein to the diets of those who are not eating enough food.

We also provide many other quality products designed to help care providers meet the dietary needs of their residents and patients.

THICKENERS

Hormel **THICK & EASY® Food Thickeners** are now available in 2 unique formulas.

Our **THICK & EASY® Food Thickeners** have been used for over 25 years. This product, produced from a modified corn starch, is routinely tested to assure it offers industry leading quality and performance in every serving. Hormel **THICK & EASY® Instant Food & Beverage Thickener** is available in several packaging styles ranging from a 25 pound box to pre-portioned packets, designed for specific beverage consistencies. It is also offered with vitamin and mineral fortification as **THICK & EASY® Plus**.

THICK & EASY® Clear Instant Food & Beverage Thickener is a xanthan gum based thickener. This thickener was developed to improve the clarity and visual appeal of thickened liquids but it is also great for foods. **THICK & EASY® Clear** has very little color or flavor allowing foods to keep their natural flavors and aromas while being safer to eat for those with dysphasia.

Shape & Serve® Thickener is an affordable way to offer great looking shaped pureed foods using foods on your current menu. Adding **Shape & Serve® thickener** provides shape and texture to foods while enhancing the natural flavors. Shaping molds are available for a wide variety of foods so pureed diet plates look and taste fantastic.

THICKENED BEVERAGES - READY TO SERVE

Hormel Health Labs thickened juices and beverages are thickened using xanthan gum. This allows for best in class flavor and appearance while delivering reliable product consistency.

FEATURES:

- Appealing taste & appearance
- Available in two consistencies; nectar consistency (IDDSI  Level Mildly Thick) and honey consistency (IDDSI  Level Moderately Thick)
- NO High Fructose Corn Syrup

BENEFITS:

- A dignified option for those with modified swallowing abilities
- A refreshing drinking experience
- A time saver for care providers
- Assurance that the liquids are thickened correctly every time
- Reduced carbohydrates compared to other thickened beverages
- Diabetic options- Hydrolyte® Thickened Water and Thickened Sugar Free Peach Mango Drink

THICKENED DAIRY – READY TO SERVE

THICK & EASY® Dairy is our 2% reduced fat thickened milk which has that “real dairy” taste because it is packaged fresh. The thickened dairy products provide the same nutritional benefits as regular milk. Thickening dairy-based products can be difficult. Even well trained staff can be challenged to get a smooth mixture with the proper viscosity. Our thickened milk allows you to provide a high-quality, consistent beverage every time.

FEATURES:

- Eliminates measuring and mixing - just chill and serve
- Thickened consistencies formulated to meet National Dysphagia Diet guidelines and IDDSI standards.
- Available in two consistencies;
nectar consistency (IDDSI  Level Mildly Thick) and
honey consistency (IDDSI  Level Moderately Thick)
- Available in original and chocolate flavor

BENEFITS:

- Reliable consistency with every serving
- Eliminates waste - no mixing errors or problems
- Saves labor and time

FORTIFIED NUTRITIONAL SHAKES

Med Pass® 2.0 Fortified Nutritional Shakes provides a convenient way to supplement calories and protein. Designed to be used as a medication pass drink, **Med Pass®** products deliver more nutrition than water, juice or milk. This additional intake can mean weight maintenance or weight gain. **Med Pass® Reduced Sugar** is a carbohydrate controlled formula suitable for glucose intolerant residents.

FEATURES:

- Volume restricted - provides 120 calories and 5g of protein in 2 oz.
- Fortified with 18 to 19 vitamins and minerals
- Available in nectar consistency (IDDSI Level 2 Mildly Thick)
- Shelf stable

BENEFITS:

- Patients or residents enjoy the creamy rich flavor
- Convenient on nursing carts
- Consumption easily monitored by nursing
- Eliminates waste associated with individual servings
- Readily accepted by residents

PROTEIN & AMINO ACID SOLUTION

Hormel Healthy Shots® Protein & Amino Acid solution is designed to deliver high quality protein supplementation to diets and tube feedings. This product is ideal for pressure injuries, tube feedings, renal, bariatric patients, or for diabetics looking for protein without excessive sugar.

It is clear, clean, and refreshing. There are two protein levels to choose from both have a PDCAAS score of 100%. Select either the 12 or 24 grams of protein varieties in only a 2.5 fl. oz. serving. It's lactose free, fortified with vitamins A,C,D,E and folic acid.

Hormel Healthy Shots® can also be added to everyday beverages to add fruity flavor and boost protein.

PROTEIN & CALORIE FOOD SUPPLEMENTS

Hormel Vital Cuisine® Propass®

Whey Protein Supplement Powder is designed to be added to foods and beverages or used in tube feedings, delivering 6g of protein per serving. This protein powder was manufactured to mix easily without clumping. It was formulated with limited color and flavor so when mixed with foods or beverages it results in a limited change to taste or appearance. The added high quality whey protein is ideal for adding extra dietary protein for pressure injuries or unintended weight loss.

Hormel MultiMix® is the original food first intervention to combat unintended weight loss. Hormel MultiMix® adds calories and proteins to foods while enhancing the flavor. This versatile option is great alternative to between meal supplements.

PROTEIN & CALORIE DRINK MIXES

Hormel Vital Cuisine™ Instant Breakfast and Super Shake Mixes are a tasty way to supplement nutritional intake. These mixes are a good source of both protein and calories and are fortified with essential vitamins and minerals. Functionality is only the beginning; after one taste, you'll forget that these are nutritional mixes. **Hormel Vital Cuisine™ Shake Mixes** offers simple "just add milk" preparation and is available in a variety of flavors.

HORMEL VITAL CUISINE™ L-EMENTAL® ARGININE DRINK MIX

Hormel Vital Cuisine™ L-Emental® Arginine Drink Mix is a blend of Arginine, Vitamin C, Vitamin E and Zinc. Arginine becomes conditionally essential during times of metabolic stress. It may assist in maintaining skin integrity.

FEATURES:

- 4.5 g of elemental Arginine per serving
- Fortified with zinc to help with wound healing
- Fortified with Vitamin C and Vitamin E for antioxidant properties
- Conveniently packed with one serving per packet

BENEFITS:

- Mixes easily with water, juices, carbonated beverages, or other clear liquids
- May help to maintain skin integrity

FIBER MANAGEMENT

FiberBasics® Products are designed to be the foundation of a fiber management program with a good source of fiber in every serving.

FiberBasics® Fiber Added Juices offer a food first approach to bowel management. Fiber Added Apple and Orange juice are 100% juice and can be used as a menu item for any meal. They taste and look like regular juice served to other residents, yet offer residents a dignified alternatives to laxatives.

Hormel Vital Cuisine™ FiberBasics® Instant Soluble Fiber is a great product to use when diets need more fiber. Simply mix into ordinary foods or beverages and make any item a good source of fiber. Each serving adds 3 grams of fiber. This product is so soluble and well tolerated it is feasible to use 2 or 3 scoops in a beverage and create an enjoy dietary intervention for digestive health. It also works well with feeding tubes.

REDUCED CALORIE DESSERTS

Sin Free® Cake Mixes may be fat free and reduced calorie, but they're big on taste. Available in both yellow and chocolate, these cake mixes offer just-add-water convenience with a taste that will be widely accepted. The dry mix recipes provide ease of portion control and can be baked in a variety of shapes – just like a regular cake mix.

Sin Free® Reduced Calorie Pudding Mix is tasty enough to be served to all residents and fulfill the diet requirement for your low calorie, diabetic and fat restricted diets.

FEATURES:

- Convenient just add water mixing directions
- Great tasting

BENEFITS:

- Allows additional dessert varieties
- Eases menu planning

Sin Free® Sorbets are a great alternative to high calorie, high sugar desserts. These are a very well received frozen treat. At 40 calories or less per serving they can fit into any diet. **Sin Free® Sorbets** allow diabetics and residents on weight controlled diets an opportunity to participate in snack time without feeling restricted.

FEATURES:

- Great tasting
- Easy to serve

BENEFITS:

- Fits into any diet
- Works well with snack pass
